1. This may be the Kara-Kul located at (N 39-00, E 73-20), though it seems rather far away.
2. These are probably the Susamyr-Tau mountains, which are about 75 miles from Frunze.
3. Tagh means mountains or mountain range. There is a lake, Kosh-Kul (N 43-30, E 72-20), about 125 miles northwest of Frunze, but no mountain range by that name.
4. Another name for Fergana is Skobelevo.
